WORK EXPERIENCE

Fellow, Headstarter AI Fellowship

- Participated in building and planning AI-driven projects
- Gained hands-on experience with machine learning workflows

07/2023 – 10/2023
Remote

Intern, ITU Innovation Center

- Assisted in software development and IT-related tasks
- Worked with backend development and data handling

05/2024 – 07/2024

EDUCATION

B.Sc. Computer Science (Dual Degree),

Hof University of Applied Sciences, Hof, Bavaria, Germany

10/2025 – Present
Hof, Germany

B.Sc. Computer Systems and Software Engineering,

International Information Technologies University (IITU)

- Current Average Grade: 3.58

09/2023 – Present
Almaty, Kazakhstan

TECHNICAL SKILLS

Programming Languages

Python, C++, SQL

Software Engineering & Development:

Data Structures & Algorithms, FastAPI, Django, HTML/CSS/JavaScript

Tools & Platforms:

Git, GitHub, Docker, Linux, Jupyter, Hugging Face

LANGUAGE PROFICIENCY

English — C1 • Russian — B1 • German — B1.1

PROJECTS

Sign Language Recognition System

- Processed hand landmarks using MediaPipe for gesture recognition
- Implemented feature mapping for ML model input (Random Forest)

Financial News Analyzer

- Built Fast API backend using FinBERT for financial sentiment analysis
- Implemented model comparison and latency tracking
- Deployed application using Docker and Hugging Face Spaces

RESEARCH & ACHIEVEMENTS

Research and Academic Achievements

- Conducted research in AI and data analysis
- Presented research at DTESI and YDF conferences
- Winner - Alhakathon – Best IT Project
- ICPC Programming Competition Quarterfinalist
